

Report on Resume Generator

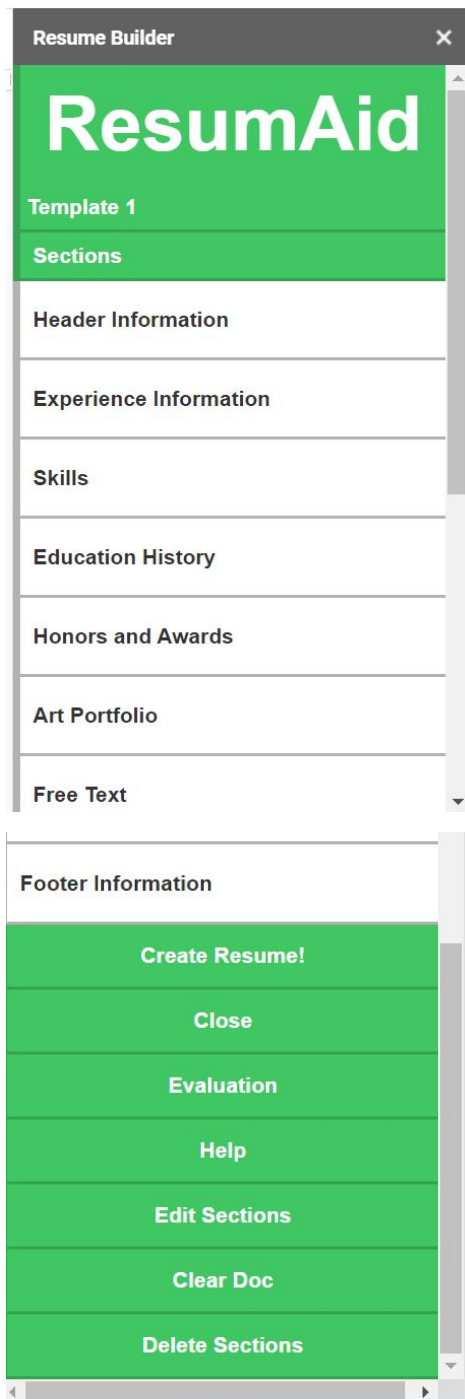

1. Installation

First, go to the top menu bar in google document and click "Add on", choose the name of our add on and click "Run". Then, A sidebar UI will pop up. Enter your header, education, honor, experience, skill set, portfolio information. You may add more sections by using the "Free Text" button. Before generating the resume, edit the information in the edit.html by using the edit button. Clear the document if necessary. The clear document button will only clear the text on the google document, but it won't remove the information you have entered. Evaluate yourself by answering the candidate questions to generate a plot. Delete the section you don't want by using the delete button. Choose the template by the template dropdown menu. Generate Resume by the "create resume" button. View the instructions using the Instruction button.

2. Updates based on Feedback & Improvement

According to the feedback from the TA and Dr. Choe, we added an edit.html to let the user edit the info they had entered. The view buttons let the user see what information has been recorded in the app before they made any modification. In each section, we check for valid emails, phone numbers and websites. Although we do not have an "undo" button, we have a "delete" button and a "clear doc" button. We change how the UI looks. Currently, it's more appealing. The UI in survey was changed from radio buttons to dropdown menus. We also implement free text sections to allow users to add sections to their resume templates.

Edit

Check the box of a particular entry if you want to modify it. Use the get view button above to view a particular entry and use the submit button and the checkbox to submit changes. In the example below, I want to change the level of German from 1 to 9.

Edit

current skill
skill name:Germen
skill level:1

Edit skill set info
☐ skill name
☒ skill level

current education
enter a number starting from 1 to view nth education you entered

Edit Lastest Education Info

Survey

You will complete a 10-question self evaluation to visualize your answer and get a message from the employer.

survey

Self Evaluation

Answer the questions below to help companies to know more about you (data analysis and plots)

Are you passionate about the major you are in now? (1 means not passionate at all, 10 means very passionate):

How do you rate your resume among all candidates:

How often do you submit a report without reading through it/ doing grammar check?(1 means never, 10 means very often,every time):

Do the experiences you have related to the position you want to apply? (1 means not related at all, 10 means very related, the same position):

Are you a quiet person or an outgoing person? (1 means super quiet, 10 means super outgoing)

Do you want to be at a more technical position or at a more business side position? (1 means very technical, 10 means very business
